[illegible]

» Period of supply could vary between 3 working days for standard items requisitions, 10 working days for specialized items requisitions and 2 months for main orders of scaffolding items.

- To avoid unnecessary delays, please ensure to:

1. Provide details (type, size, density, extra components, etc.).
2. Specify whether only "new" material is required and why.
3. Specify period and purpose of use for equipments:

4. Have already submitted the "Materials Distribution Form" for main materials*.
5. Specify location of use for main materials*.
6. Attach updated schedule for main materials*.

*Main materials include steel, wood, blocks, etc.

7. Provide brief explanation for above-the-ordinary quantities.
8. Study quantities to avoid repetitive requisitions.
9. Sign requisitions by all concerned parties on site.

Requisitions not abiding by the above (where applicable) and lacking the required information will not be processed.
